THE MINISTER OF FINANCE (SHRI P. Venkataramiah, former Chief Justice of India, to determine whether there was any dereliction of duty on the part of the officials of RBI relating to scrutiny of Portfolio Management Scheme (PMS) and investment transactions and the delay in issue of guidelines on bills discounting, respectively. The enquiries concluded that no case of dereliction of duty or malafide has been made out against officials of RBI. RBI have accepted these findings.

Impact of guidelines for Euro issue

1964. SHRI SANJAY DALMIA: Will the Minister of FINANCE be pleased to refer to the answer to unstarred Question 976 given in the Rajya Sabha on 23rd July 1996 and state:

(a) the impact of guidelines for Euro Issue on Indian Corporates and non-banking finance companies in GDR (Global Depository Ratio) market;

(b) whether there is a demand for removal of restrictions over foreign loans on Euro issues; and

(c) if so, the reaction of Government thereon?

THE MINISTER OF FINANCE (SHRI P. CHIDAMBARAM) (a) The Euro Issue guidelines were revised, interalia, to permit relaxation in track record requirement/eligibility condition for raising funds for infrastructure projects, inclusion of Banks, Financial Institutions and Non-Banking Finance Companies to braod-base the eligible entities to access international capital market to mobilise funds. The successful tapping of the global GDR market by Indian companies etc., however, depends on a host of exogenous factors including movements in the United States interest rates, attractiveness of other emerging market equities, performance of the international capital markets etc.

(b) and (c) Proposals for floating Foreign Currency Convertible Bonds (FCCBs) by Indian companies should conform to the end use norms prescribed by the Government for External Commercial Borrowings (ECB) from time to time. A relaxation has been provided in the Euro issue Guidelines dated the 19th June, 1996 allowing Indian Companies floating FCCB issues to utilise not more than 25% of the issue proceeds for general corporate restructuring uses inclduing working capital requirements. Deployment of the balance FCCB issue proceeds, would continue to be in accordance with the ECB norms.
